Waseem Raza

has successfully completed the online, non-credit Professional Certificate

Google Cloud Data Analytics

Get hands-on training designed by Google Cloud and take the next step in your career into the high-growth field of cloud data analytics. Moving data to the cloud offers the agility to process data in multiple locations, increasing the speed with which data is shared and the ability to access data in real-time. Companies in nearly every industry can benefit from the expertise of cloud data analysts. After finishing, you'll be prepared for jobs like cloud data analyst, business intelligence analyst, and more. Claim your Google Cloud Certificate digital badge on Credly and share with your network! Your Google Cloud Certificate offers a recommendation from ACE® of up to 10 college credits. Please note: The decision to accept credit recommendations is up to each institution (not guaranteed).
